PROJECTS

LLM-Based College Admission Assistant - AI-Powered Admission Query Processor

- Developed an intelligent admission support system using lightweight LLMs to handle student admission-related queries in real time.
- Automated eligibility and fee queries with a fine-tuned model for accuracy.

Placement Prep - Campus Placement Training Platform

- Built a full-stack web application for online exams and analytics with real-time dashboards.
- Enabled multi-college support and automated reporting.

ADDITIONAL PROJECT, *AI-Powered Sentiment & Profanity Detection System*

- Developed NLP classifier achieving 92% accuracy using Python and NLTK.
- Deployed real-time moderation system for social media content.
